## CAREER OBJECTIVE

As a recent graduate with a Bachelor of Science degree in Computer Science and Engineering, I specialize in problem-solving and competitive programming. With a robust foundation in data structures, algorithms and mathematics. I am well-equipped to tackle challenges and make significant contributions in a professional setting.

## ACHIEVEMENTS

ICPC - 2023

Participated in ICPC - 2023 which is a global competitive programming contest.

Problem Solving Certification

Earned Problem Solving Certification from HackerRank, demonstrating proficiency at basic and intermediate levels.

SQL Certification

Achieved SQL Certification from HackerRank covering both basic and intermediate levels.

Meta Hacker Cup - 2023

Participated in Meta Hacker Cup - 2023, an annual programming competition showcasing algorithmic problem-solving skills.

## COMPETITIVE PROGRAMMING

Solved 700+ Algorithmic and Data Structure-based problems using C++ in various online platforms. **StopStalk**

CodeForces : ariful.noman

Max rating : 1273 (Pupil)

LeetCode : noman007

Max rating : 1500

CodeChef : noman007

Max rating : 1507 (2 ★ Coder)

## STRENGTHS

C

C++

Java

Python

HTML

CSS

React

PHP

JavaScript

My SQL

PostgreSQL

Ajax

Bootstrap

Data Structure

Algorithm

OOP

## EXPERIENCE

Intern Database Engineer

V2 Technologies Ltd

May 2024 - Present

Dhaka, Bangladesh

## PROJECTS

### Hotel Management

- Hotel Management Project implemented with HTML, CSS, JavaScript, Bootstrap for frontend, PHP for backend, utilizing AJAX for dynamic content loading, MySQL for database management, and integrated APIs for email verification and payment processing.

### Weather App

- I created a web app using HTML, CSS, and JavaScript to show real-time weather data. With an external API, it delivers accurate updates in a user-friendly interface, showcasing my front-end and API skills.

### Event Management

- Created an intuitive event management app for mobile devices using XML for frontend and Java for backend. Integrated SQLite for efficient database management and added dynamic features to improve user experience.

### Drops of Blood

- Developed "Drops of Blood," an intuitive mobile event management application using XML for frontend design and Java for backend functionality. Leveraged SQLite for streamlined database management and implemented dynamic features to enhance user engagement and experience.

## EDUCATION

BSc. in Computer Science and Engineering

East West University

January 2019 - June 2024

Thesis Title: Sentiment Analysis Using Multimodal Input

Higher Secondary School Certificate

Mohammadpur Central College

GPA: 4.25 / 5.00

Secondary School Certificate

Rupnagar Model School and College

GPA: 5.00 / 5.00
